*I'm a Fullstack Developer with experience working in different projects with the following stack of technologies: Javascript, Typescript, React.js, Node.js, SQL, Express, and **MongoDB**. Additionally, I have hands-on experience with third-party authentications, utilizing platforms such as **Firestore**, **Auth0**, as well as implementing **JWT** (JSON Web Tokens). I consider myself a problem-solving, team player, and results-oriented person. I'm looking for new challenges in the Industry where I can bring value to the team and to the company in order to achieve the company's objectives.*
